**EUROPEAN UNION FINE:
MAKE THE
BEEF BARONS PAY!
NOT PAYE WORKERS.**

The European Union are about to levy a fine of over £50m on Ireland because of the fraud in the beef industry.

PAYE workers should not shoulder the burden of this fine. Those who committed the crimes should be forced to pay.

Yet two years after the scandals first came to light no real moves have been made to prosecute those involved.

If anyone else were to steal as much as a packet of rashers, they would appear before the courts.

But when fraud is committed on a massive scale by major backers of the two main parties they get off scott free.

Demand that a special law be enacted by Dail Eireann to make the culprits in the beef industry pay up.

Support the demonstration of PAYE workers to Dail Eireann on Saturday 30th March at 3pm.
